SERVING THE DENTAL COMMUNITY SINCE 1983

P R O D U C T C A T A L O G U E

**Dear Doctor and Staff:**

Orthodontic Supply of Canada is pleased to present you with our most recent catalogue of high quality orthodontic supplies. We are a proud Canadian distributor and are pleased to offer you a wide range of products including Lancer Orthodontics, Reliance Orthodontic Products, Raintree-Essix, Infalab, Leone America, ETM and Othopli.

Many new and improved products have been added since we opened for business in 1983. Over the years we have continued to provide you with the latest and highest quality products available. Some of these include; the Praxis bracket and Redi-Pak from Lancer, the expanded buccal tube line, Flowtain and Proseal from Reliance, Ace retainer plastic by Essix and Stealth pliers.

We have enjoyed serving the orthodontic community for the past 25 years and welcome the opportunity to speak with you and answer any questions you might have about our product line.

Sincerely,

Orthodontic Supply of Canada

Proudly supplying "everything ortho" for over 25 years

## TERMS AND CONDITIONS . . . . . 127

In 1967 Lancer Orthodontics was founded on the premise of developing and manufacturing innovative orthodontic solutions. Not all orthodontic companies manufacture their own appliances.

Lancer is International Standards Organization (ISO) 9000 and 13485 certified which requires ongoing audits and frequent checks in order to maintain certification as a dental device manufacturer in all countries. This means continuous monitoring and establishment of "best practices and standards".

Lancer's mission is to partner with the orthodontic profession to link manufacturing excellence to clinical perfection while helping you manage your bottom line.

A sensible choice in appliances that provides clinical performance, service and value.
